

Dr. Shaimaa Mahmoud Hassan

GENERAL DENTIST | RESTORATIVE AND AESTHETIC DENTISTRY

Luxor, Egypt | +20 111 881 4870 | shymaahassan39@gmail.com

PROFESSIONAL SUMMARY

General dentist and 2025 BDS graduate with private-clinic experience across restorative dentistry, fixed prosthodontics, endodontic care, dental extractions, pediatric dentistry, and basic orthodontic procedures. Applies rubber dam isolation, conservative treatment planning, digital radiography, and infection-control protocols. Completed 127 documented continuing education hours, including an 84-hour hands-on clinical orthodontics course.

CLINICAL EXPERIENCE

General Dentist

2025 - Present

Elite Dental Clinic | Mentorship of Dr. Safwat Sayed

- Assess patients, support diagnosis and treatment planning, and deliver routine general dental care under senior mentorship.
- Restore anterior and posterior teeth with direct composite, anatomical layering, and strict rubber dam isolation.
- Manage fixed prosthodontic workflows, including crown and bridge preparation, gingival retraction, and metal try-ins.
- Provide endodontic care using rotary instrumentation and digital periapical radiography.
- Perform routine and selected surgical extractions, including root separation, and provide pediatric restorative care.

Dental Assistant and Clinical Trainee

2021 - 2024

Mohamed Madany Clinic | Dental school years 2 to 5

- Assisted dentists during restorative, endodontic, surgical, and prosthodontic procedures.
- Prepared instruments and clinical materials; supported four-handed dentistry and patient preparation.
- Maintained sterilization and infection-control workflows and assisted with charting and digital intraoral radiography.

CORE CLINICAL SKILLS

Restorative and aesthetic: Direct composite restorations; Class I-V cavity preparation; anatomical layering; stamp technique; rubber dam isolation.

Prosthodontics: Single crowns; fixed bridges; endocrowns; gingival retraction; metal try-in evaluation.

Endodontics and surgery: Root canal therapy; rotary instrumentation; digital working-length and post-obturation radiography; atraumatic extraction; root separation.

Pediatric care and standards: Pediatric restorations; behavior guidance; dental photography; infection control; conservative tissue-preserving practice.
